

NEW MODEL FLUELESS GAS

The Image

Burley's ultra-slim hole in the wall fire

Model 4238 chrome

The contemporary Image flueless gas fires are available in chrome or brushed steel. Their slimline design gives you the option to position them flat on the wall or to semi-inset. The same fires achieve a different look when used with the Thames 797 surround (see overleaf).

Model 4238 chrome

Model 4237 brushed steel

- No chimney or flue required
- 100% efficient
- 2.5kW input/output
- Clean burning
- Catalytic converter
- Natural gas or propane
- Pebble-effect fuel bed
- Remote control option

	Height	Width	Depth
Overall fire dimensions	590	632	198
Inset fire dimensions	486	338	91

All measurements are in millimetres

Use the Burley infill when wall mounted

New additions 2006

The Thames Surround ⁷⁹⁷

Thames 797 surround in cast stone shown with the Image 4237.

Note that the surround is shown in the vertical position.

The Thames surround can be wall mounted or simply placed on the floor, vertically or horizontally – the choice is yours.

This stunning surround is made from Concast™ – Burley’s revolutionary building material which is available in cast stone or slate. It makes the perfect partner for the Image flueless gas fire (both models 4237 and 4238).

Thames 797 surround in slate shown with the Image 4237

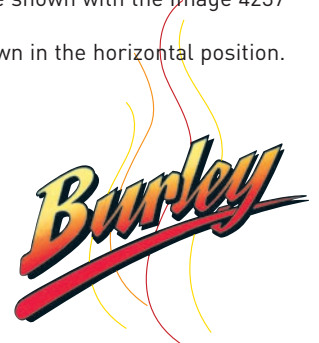

Note that the surround is shown in the horizontal position.

Model 4238 chrome

	Height	Width	Depth
