

Yeoman

A NATURAL WARMTH

Wood, Multi-fuel, Gas and Electric stoves

From its humble origins over 25 years ago on a farm near Dartmoor, renowned for its cold winters, Yeoman has grown to become one of the UK's leading stove manufacturers. Today, we offer not only a wide selection of traditionally-styled woodburning, multi-fuel, gas and electric stoves, but also high-output boiler stoves through to contemporary stoves, with each model providing superb value for money.

The Yeoman Range...

Traditional Wood & Multi-Fuel Stoves..... 6 - 13

A comprehensive collection of classically designed stoves, incorporating the unmistakable atmosphere of a real log or smokeless fuelled fire. From the compact Exmoor model to the grander scale County, that true rural ambiance can be perfectly attained in rooms of all proportions.

CL Wood & Multi-fuel Stoves 14 - 19

For those with a more contemporary taste, the eye-catching CL range with clean geometric designs, brings woodburning and multi-fuel stoves right into the heart of 21st century living.

Traditional & CL High-Output Boiler Stoves 20 - 25

Complete home heating never looked so good. The latest additions to the Yeoman range, these five exceptionally efficient stoves not only heat the room they are in, but can also provide enough hot water to supply up to 19 radiators throughout the rest of the house. Traditional & Contemporary styles with free standing and inset models.

Double-Sided Stoves 26 - 27

Truly the ultimate centre-piece, these exquisite stoves bring two rooms together with your choice of four timeless designs in both solid fuel and gas options.

Gas Stoves 28 - 39

Combining the allure of a log or coal fire with the convenience of an instantly controllable heating source, Yeoman Gas stoves offer maximum aesthetic appeal and warmth at the turn of a switch. What's more, opt for a programmable remote control and your stove can even be set to automatically turn on or off at times to suit your lifestyle!

Electric Stoves 40 - 43

Incorporating our unique VeriFlame™ technology, the Yeoman Electric models boast a choice of glow & flame effects, individually hand-painted logs and full remote control. With superior realism and up to 2kW of heat output, a Yeoman Electric stove will always be a pleasure to come home to.

Wood, Multi-fuel, Gas & Electric stoves

Wood & Multi-fuel Stoves

All Yeoman stoves are designed to burn wood and smokeless fuels and have been independently tested to exacting standards for both heating efficiency and emissions. The Exmoor, Exe, Devon, CL3 and CL5 models have also been DEFRA approved for the burning of wood in Smoke Control districts when fitted with a smoke control kit.

Wood – Wood is the better fuel in environmental terms being carbon neutral, as the amount of carbon dioxide released into the atmosphere is approximately the same as that absorbed by the tree during growth. It is also a renewable resource, particularly when derived from plantations and cultivated woodland. For optimum results, we recommend logs should be seasoned for 2 years or more to achieve a moisture content below 20%. This will not only give twice the output of freshly felled timber but help avoid a build up of tar in your flue. Furthermore, if you can obtain hardwood logs this is better still, as they will have around twice the calorific value of softwoods.

Solid fuels – anthracite and manufactured smokeless fuels can be burnt with the addition of a multi-fuel kit. Choose from either the economic Static Kit on the County and Double-Sided models or, for optimum performance, the external Riddling Kit on Exmoor, Exe, Devon and CL stoves, including high output boiler stoves. Please note, however, that petroleum based fuels must never be used on your stove.

Styling options

The look of your stove is very important. That is why Yeoman offers you the opportunity to personalise our stoves with a variety of styling options. According to model, these include flat top and high or low canopies, panoramic single doors, double doors with removable, window crosses, brass handles, decorative cast top plates and plain or Tudor Rose air spinners.

Boiler Stoves

Several Yeoman Woodburning/Multi-fuel stoves are designed to be fitted with optional boiler systems and details of these can be found on appropriate pages. Additionally, Yeoman offer a selection of High-Output Boiler models that come with the boiler built in. Please see pages 20-26 for details.

Gas Stoves

All Yeoman gas stoves are available with natural gas or LPG and, depending on model, feature a highly realistic coal or log effect fire. All are available as manual operation with most having the option to upgrade to either a standard remote, allowing heat regulation once the pilot light has been lit manually, or a programmable remote with additional thermostatic and timer controls.

Electric Stoves

A Yeoman can be as easy to install as plugging in and switching on! Featuring our unique VeriFlame™ technology with low energy LED illumination and hand painted fuel bed. With the heater discreetly located underneath, the remote control allows you to adjust the heat between off, 1kW and 2kW in addition to the VeriFlame™ effects.

Colour options

Colour is another option, with a choice of four paint finishes available for most stoves: Metallic Blue, Metallic Brown, Matt Black or Metallic Green. CL Stoves are finished in Midnight Black Metallic†.

Key to symbols			Radiator Capabilities
	Flat Top		Maximum Heat Output
	Low Canopy		Boiler Output*
	High Canopy		Vent not normally required

* Information for boiler options is a guide only. Seek advice and a site survey from a qualified heating engineer before ordering.

Five Year Warranty

Your Yeoman retailer will provide you with a Five Year Warranty on the castings for your new stove. They also provide a two year warranty for the steel carcass, subject to the stove being serviced 12 months after installation.

Expert Retailer Network

To help you select the right stove for your home, you will find our useful reference symbols throughout the brochure. However, your Yeoman retailer will be pleased to provide any further information and advice you may require. We take great care to ensure that our stoves & fires are designed, tested and manufactured to the highest possible quality and safety standards. We are just as concerned to make certain that they are sold and installed correctly so that you enjoy years of pleasure from your purchase.

Accordingly, you will find our products are only available from experienced, independent retailers who will enable you to see a selection of models locally in their showrooms, often fully operational; discuss your individual requirements both technical (such as sizing the heat output to your room and advising on your flue type) and design; and ensure that you select the most appropriate product for your home. These retailers will also be able to advise on or assist with the installation process as well as help provide any after sales support & servicing your appliance may require in the future.

Full details of these warranties are set out in our Instruction Manuals, which are also available to view online at www.yeoman-stoves.co.uk.

Whilst we encourage our retailers to promote fireplace products and their outlets via the internet, we do not believe suitable levels of customer care and satisfaction can be obtained from nationwide online sales and we would strongly recommend that you consider this when undertaking your research and making a purchasing decision. Further, please be aware that we do not offer technical support (beyond our statutory responsibilities) to products bought via nationwide online sales, where this support would normally be offered by one of our qualified, independent retailers.

Exmoor - neat and compact for the smaller room

Exmoor

Wood and Multi-fuel Stoves

Particularly suited to smaller rooms, the classically styled Exmoor is designed to fit neatly into a traditional 'builder's opening'. The gently curved front and sides give this model a solid, well proportioned appearance

and one which can enhance both traditional and contemporary settings. A curved glass window also provides an excellent view of the flames.

- Woodburning and multi-fuel models
- External riddling†
- Clean Burn - the tertiary air system provides greater fuel efficiency (78% with wood)
- Yeoman Airwash System – to give a clearer view of the flames
- Optional brass handle
- Optional plain air spinners
- Top or rear flue – 128mm (5")
- Smoke Control Area Approved*
- Gas and Electric versions also available, see pages 28 - 41

† Multi-fuel version

Exe - ultimate versatility with optional boiler

Exe

Wood and Multi-fuel Stoves

Compact yet versatile, the Exe offers you an extensive choice of styling options as well as an optional boiler that can provide domestic hot water. It features Yeoman's Clean Burn system too, so you will enjoy improved

fuel efficiency and a greater control of combustion. Furthermore, being a nominal 4.9kW output, no air vent is needed when the Exe is installed.

- Woodburning and multi-fuel models
- External riddling†
- Clean Burn - the tertiary air system provides greater fuel efficiency (Wood 78%, Smokeless fuels: 85%)
- Yeoman Airwash System – to give a clearer view of the flames
- Single or double door options
- Optional brass handles
- Optional plain air spinners◊
- Removable Tudor Rose door crosses*
- Optional boiler – for domestic hot water or supplementary central heating
- Top or rear flue – 153mm (6")
- Choice of extras – including spark guard* and butterfly spindle flue damper
- Smoke Control Area Approved**

Devon - at home in both traditional and modern settings

Devon

Wood and Multi-fuel stoves

The Devon is a highly popular, medium sized stove which can be tailored to look equally at home in the fireplace of a modern house or the inglenook of a country cottage.

It also offers an impressive heat output of up to 9kW whether burning logs, anthracite or smokeless fuels.

- Woodburning and multi-fuel models
- External riddling†
- Clean Burn - the tertiary air system provides greater fuel efficiency (Wood 81%, Smokeless fuels: 78%)

CL3 - small stove, big impression

CL3

Wood and Multi-fuel Stove

Designed to be equally at home in either a traditional setting or today's modern interiors, Yeoman's new woodburning and multi-fuel CL range of stoves are an eye-catching focal point. Furthermore, the CL range offers the very latest in heating technology creating high

efficiency and trend setting aesthetics. The smallest in the series, the CL3, makes a big impression despite its compact proportions. To complement the gentle curves of the stove front, there is a decorative cast top plate available for each of the CL stoves as an optional extra.

- Multi-fuel model
- External riddling
- Clean Burn – the tertiary air system provides greater fuel efficiency (up to 86%)

CL5 - high efficiency heating and 'modern traditional' styling

CL5

Wood and Multi-fuel Stove

With high efficiency and ‘modern traditional’ styling, the CL5 offers a fresh alternative for heating in today’s homes. Along with the smaller CL3, the CL5 is approved for use in Smoke Control zones, so you can achieve carbon neutral heating with wood wherever your location! It is available in two versions: woodburning only or multi-fuel

which incorporates a riddling grate to allow the burning of smokeless fuels. In addition, both versions can be enhanced by the optional decorative cast top which provides even greater elegance with its subtle, curved form.

CL8 - outstanding focal point for your living space

High-Output Boilers

Multi-fuel Boiler Stoves

Four models within the range have been specifically designed to supply your domestic hot water and central heating requirements or augment your existing heating system via 'link up' technology. Whichever your choice, you will enjoy all the atmosphere of a real fire and exceptional heating performance for other areas of your home.

When providing hot water and central heating, each stove is capable of feeding an average 8000BTU hotwater cylinder and from 9 up to 19 radiators. The exact number of radiators will depend upon how many rooms you wish to heat and sizes of those rooms. Radiators also come in a variety of sizes/capacities but, for example, a typical 400mm high x 1000mm wide, single panel radiator requires 2500BTU/hr. You should always consult a qualified heating engineer to ensure the stove can meet your requirements.

Alternatively, you can 'link up' a Yeoman high output boiler with your existing or proposed heating system to reduce your reliance on gas or oil and help decrease overall heating fuel costs. There are ways to link with conventional oil or gas central heating, gas or oil sealed heating systems, combi boilers, underfloor heating and even solar panels to provide flexible and cost-effective solutions. Yeoman produces a 'link up' guide showing typical arrangements and covering some frequently

asked questions. You may find it useful to download this from www.yeoman-stoves.co.uk before discussing your requirements with a qualified heating engineer.

All Yeoman high-output boiler stoves are designed for multi-fuel use and incorporate an externally operated riddling grate. This is because solid mineral fuels tend to provide greater calorific values. Should you wish to reduce your CO₂ emissions then you can also burn a combination of smokeless fuels and logs together. However, if Woodburning only is your preference, you can still achieve good performance but, as logs burn best with slightly different firebox characteristics, we recommend you purchase the optional log tray which replaces the riddling system.

Exe Double-Sided - the warming heart of your home

Double-Sided

Wood, Multi-fuel and Gas Stoves

There can be few sights as inviting or reassuringly evocative, especially on a cold winter's night, as the roaring fire of a Yeoman double-sided stove turning two rooms into the warming heart of your home. With a Yeoman Double you enjoy twice the stove. Doors front and back are designed to open into adjoining rooms with one central chimney. You can choose from Exe, Devon and County models and from single or double

depth versions. Each model also has a number of styling options to complement your decor. In addition to the wood/multi-fuel stoves, the Devon double, single depth is available with the convenience of a highly realistic, gas log effect fire. Opt for the remote control and you can even adjust the flames and heat from the comfort of your favourite armchair or sofa.

Solid Fuel

- Top flue - 152mm (6")
- Suitable for burning wood or multi-fuel#
- Yeoman Airwash System – to give a clearer view of the flames
- Optional butterfly spindle flue damper
- Optional spark guards*
- Tudor rose or plain air spinners[◇]
- Single or double depth versions (depending on model)

Gas

- Conventional top flue - 128mm (5")
- Superb log effect fire
- Variable heat output
- Optional remote control
- Natural gas or LPG

All versions

- Removable Tudor Rose door crosses*
- Optional brass handles
- Single or double door options (depending on model)

* Double door - Devon & Exe only. County has crosses, but no spark guard
[◇] Single door only
[#] With the use of a static multi-fuel kit (except County Double Depth which is woodburning only)

Dartmoor Gas - latest log effect for increased realism

Dartmouth Inset

Gas Fires

Offering the familiar 'family look' of Yeoman stoves and the latest high-efficiency heating, the Dartmouth is an inset convector gas fire that very much blends traditional appeal with modern convenience. At its heart is the latest high efficiency gas combustion system that has

been specially developed by our sister company Gazco to combine the exceptional heat output with much improved fuel economy (gas consumption is lower so saving you money). In fact, the balanced flue version is an outstanding 86% efficient.

- Manual control
- Conventional and balanced flue options
- Realistic coal effect fire
- Convected and radiant heat to quickly warm your room
- Variable heat output 1.8 - 3.9kW
- Up to 86% efficient
- Flue - CF class 1 or 2 128mm (5"); BF 153mm (6")
- Natural gas or LPG

			Nominal Gas Input	Supply Pressure	
Dartmouth Inset Gas CF		✓	3.65kW*	4.8kW	37mb
Dartmouth Inset Gas BF		✓	3.52kW*	4.10kW	37mb

Available Colour Options

* Output for guidance only and is dependent on gas type and flue variation

Dartmouth Inset Gas - with high efficiency technology

Exmoor Electric - complete operation by remote control

Exmoor

Electric Stove

The latest in the range is the electric version of the ever popular Exmoor stove. Available in traditional Matt Black, this stove perfectly combines the classic good looks of a woodburner with the ease of an Electric stove. At its heart the unique VeriFlame™ technology which allows you to choose from 3 brightness levels and blue or

orange flame setting to match your mood exactly – and everything is operated from remote control to save you bending! Furthermore, you can select fire effect only; fire effect + 1kW heat; and fire effect + 2kW heat according to your heating needs.

- Realistic hand-painted log effect
- VeriFlame™ technology
- Low energy LED illumination
- Remote control as standard
- Optional brass handle
- Matt Black
- 13 amp socket needed
- Variable heat output 1.0-2.0kW
- No flue, chimney or air vent required
- Wood, multi-fuel and gas versions also available, see pages 6 and 28.

		
Exmoor Electric 	✓	2.0kW

Matt Black

Dartmoor

Electric Stove

Using the same cast iron door and heavy gauge steel body as the Gas Dartmoor's, the electric versions are brought alive with VeriFlame™ technology. This means you will enjoy a choice of flame and glow effects from a remarkably authentic log-effect fire that creates a superb focal point in your room. All this and a choice of single or double doors to suit your exact styling requirements!

The heater is discreetly located under the stove but, as all functions can be operated from the complementary remote control; there is no stooping or crouching. In fact you can alter the VeriFlame™ effect or adjust the heat output whilst relaxing in your favourite chair!

- Realistic hand-painted log effect
- VeriFlame™ technology
- Low energy LED illumination
- Remote control as standard
- Matt Black
- Single or double doors
- Removable Tudor rose door crosses**
- Optional brass handle◊
- 13 amp socket needed
- Variable heat output 1.0-2.0kW
- No flue, chimney or air vent required
- Gas version also available, see page 36

** Double door only
◊ Single door only

		
Dartmoor Electric		2.0kW

Matt Black

Dartmoor Electric – authentic log effect for ultimate realism

Accessories & Flue Pipe

Fireplace, Stove & Hearth Accessories

Yeoman is a member of the Stovax Group which manufactures and distributes many other high quality fireplace, stove care and accessory products, as well as solid fuel, gas and electric fires and stoves along with traditional range cookers. To maximise the enjoyment from your woodburning or multi-fuel stove, please ask your Yeoman retailer for a Stovax accessories brochure or view the complete range online at www.stovax.com.

Stove Care & Flue Pipe

Included in the Accessories brochure is a comprehensive range of flue pipe components and a wide range of cleaning and maintenance accessories to help you get the best performance from your stove and keep it in good condition, inside and out.

Balanced Flue Systems

Yeoman's sister company, Gazco, have specifically developed a range of flue system components to complement your balanced flue Yeoman gas stove. Crafted from 304 grade stainless steel and aluminium with some items additionally offered in anthracite paint finish. Designed with ease of installation and flexibility in mind, these flue systems simply push together without the requirement for locking bands or screws. Both the inner and outer pipes are secured with easy fit, self locking, high temperature silicone seals. For further information, please speak to your retailer or visit www.gazco.com.

Technical Information

Product Improvement & Guarantee

Yeoman pursue a policy of continuous product improvement. Products supplied may therefore differ in specification from those illustrated or described in this brochure. All Yeoman Stoves are guaranteed for 2 years from the date of purchase and have a 5 year castings warranty. However, this is dependant upon servicing the appliance 12 months after installation and specifically excludes 'wear and tear items' such as, rope seal, firebricks and grates. The use of petrocoke in a Yeoman Stove will invalidate its guarantee. For full details, please visit www.yeoman-stoves.co.uk.

Installing Your Yeoman Stove

A HETAS, GasSafe Register or Bord Gais approved installer should undertake a site survey prior to purchase and must install your Yeoman Stove for you. Your Yeoman retailer will be able to offer advice on this. You may also view or download complete installation instructions at our website – www.yeoman-stoves.co.uk.

The following diagrams cover some of the basic requirements. All fires and stoves consume air as they burn. To comply with Building Regulations (Document J), therefore, if you are purchasing a stove with a maximum heat output in excess of 5.0kW, you will need to install a fixed air vent to ensure adequate ventilation. Outputs below this will not normally require a vent.

Balanced Flue Gas Stove System

The Yeoman Balanced Flue system means having no chimney is not a problem if you opt for either an Exmoor, Exe, Devon, Dartmoor or Dartmouth Inset gas stove, as it draws combustion air from outside through its concentric pipe system. A full range of optional flue components is available to suit the configurations shown below.

Please note that these are diagrammatic representations only and vary according to model. Full installation information can be downloaded from www.yeoman-stoves.co.uk.
