Valor STYLES

valor

Millions of homes across the UK have stayed warm for over 100 years thanks to Valor, the country's leading manufacturer of fires.

Founded in 1890, when a Birmingham-based manufacturer began selling oil storage containers, attention soon turned to heating, with the production of oil heaters marking the birth of the first Valor heaters.

Outstanding technological developments and continual investment in product design over the years have more than met customer's rising needs and expectations, keeping Valor at the forefront of the heating industry.

1966 marked the production and sale of the first Valor radiant gas fire, followed just ten years later by the first 'living' flame gas fire complete with imitation fuel bed. A hugely significant turn in product design, the innovative 'living' flame fire once again proved Valor's position as a ground-breaking market leader.

The turn of the millennium hailed another new era for Valor, with the merger of Newmond plc and Baxi Group; bringing together three of the world's leading fire brands, Baxi, Valor and Wonderfire, under one umbrella: Baxi Fires Division. Now working from one purpose built factory, Baxi Fires Division looks forward to heating UK homes for decades to come.

which fire is right for you?

We want you to enjoy your new Valor fire right from the very start.

That's why we've made it so easy for you to select the fire that's perfect for you and your home. Look at the pictures below and decide which one best matches the chimney at your home then, when you're reading through our brochure and find a fire you like, simply check it's suitable for the chimney at your property.

Brick built chimney (deep chimney)

Suitable for all fires, the classic brick-built chimney can handle fires with a deep bed right through to shallower slimline styles.

Prefabricated flue (deep flue)

Suitable for most fires, pre-fabricated flues are deep enough to take most of the deep models and all of the slimline styles.

Pre-cast flue (slimline flue)

Usually found in modern homes, pre-cast flues are suitable for a wide range of slimline fires. However, a number of deeper fires can be adapted for pre-cast flues with the use of a spacer kit.

No chimney or flue

Our wide range of gas and electric fires can be fitted in most homes, even if you have no chimney or flue we can have a selection of fires for you. A separate brochure is available for our electric range.

Activeheat™ and radiant heat

All fires give out radiant heat. The heat moves outwards from the fire, so the closer you get to the fire the

warmer you feel. Whilst this is suitable for most homes, creating additional warmth throughout the room can take some time. This is where Activeheat™ helps. Fires with Activeheat™ not only give out radiant heat but actively draw in the cold air from the room, pass it through a heat exchanger to warm it up and circulate it back around the room by means of natural convection.

Homeflame Harmony leading the way in both style and efficiency.

The Homeflame collection of fires are the most energy efficient, chimney installed inset living flame fires on the market with an efficiency of 89%. Features include an angled glass front to reduce reflection, a ceramic coal bed that compliments the distinctive contemporary bar design and it provides an exceptionally realistic flame picture, even when on a low setting.

The Homeflame Harmony also offers an ultra modern chic style with a choice of black or silver finishes.

Homeflame Harmony	4.0kW	FireSlide® Top Control	Brick chimney Prefabricated flue Pre-cast flue

homeflame dream

Homeflame Dream, offers 89% efficiency.

In light of recent gas price rises, the Homeflame Dream boasts impressive energy rating of 89%, therefore offering energy efficient solutions for your home that will help to reduce household fuel costs. The Homeflame Dream is a more traditional style of gas fire, that comes in a choice of black, gold or chrome finishes.

Additional features include the traditional 3 piece fuel bed which ensures coal placement is correct 100% of the time and a fireside top control which offers easy operation in one simple movement.

Product	Max. Heat Output	Control Position	Chimney Flue Type
Homeflame Dream	4.0kW	FireSlide® Top Control	Brick chimney Prefabricated flue Pre-cast flue

The Adorn offers authentic turn-of-the-century cast iron styling coupled with a heart-warming 4.0kW Activeheat™ output. It can also run on LPG.

This is a fire that gives you the best of both worlds. On the one hand, authentic period styling, including cast iron fascia and intricate canopy detailing, it offers a classic look. On the other, it manages to combine exceptional heating power with reassuringly low running costs.

Adorn	4.0kW	FireSlide® Top Control	Brick chimney Prefabricated flue Pre-cast flue

The Valor Visage - a true classic.

The Visage is available in black with brass or just brass; it gives a timeless look to any room.

For ease of use the Visage has been fitted with a fireslide control so you don't have to get down on your hands and knees to adjust the fire.

Product	Max. Heat Output	Control Position	Chimney Flue Type
Visage	4.0kW	FireSlide® Top Control	Brick Chimney Prefabricated flue Pre-cast flue

The delightful Dream offers all the looks of a real coal fire without any of the time-consuming maintenance.

Fitted with fireside top control the Dream allows effortless operation enabling you to turn the fire on, off, up or down without kneeling down.

Available in a choice of gold, black or chrome finishes the Dream guarantee's to be a stunning focal point in any room.

An electric version of the Dream is also available (please refer to Valor Electric brochure).

Dream Convector Slimline	3.5kW	FireSlide® Top Control	Brick chimney Prefabricated flue Pre-cast flue

Ideal for the narrowest of flues, the Ultimate is a subtle modern take on the traditional gas fire.

The Ultimate provides all the atmosphere and ambience of a real coal fire with none of the mess. Available in a choice of black or brass, the Ultimate offers an impressive 3.5kW activeheat™ output and can be converted to run on LPG.

The Ultimate is the slimmest fire on the market and is suitable for all pre-cast flues.

Product	Max. Heat Output	Control Position	Chimney Flue Type
Ultimate	3.5kW	Manual Bottom Control	Brick chimney Prefabricated flue Pre-cast flue

Elegant and inviting.

The new Capri gas fire offers a clean and simple take on a classic style. With a gentle curved solid brass fret and traditional style fascia the Capri provides a timeless, classic feel to any living room.

An electric version of the Capri is also available (please refer to Valor Electric brochure).

Product	Max. Heat Output	Control Position	Chimney Flue Type
Capri	3.1kW	Manual	Brick chimney Prefabricated flue Pre-cast flue

Blenheim slimline

The low maintenance, high performance alternative to a real coal fire.

Both attractive and practical, the Blenheim gas fire emulates a real fire in every way, featuring a classic brass frame and clean-lined front the Blenheim is suitable for homes with deeper chimneys or flues. Blenheim Slimline is also available in black and chrome variants.

Electric and Power Flue versions of the Blenheim are also available.

(see p28 for Power Flue version, for electric version see separate Valor Electric brochure).

Arden

Willow

Solid Fuel Performance.

With smooth lines and perfect proportions the solid fuel stoves range is ideal for those seeking an authentic heating experience in their home. Fashionable yet affordable, our coal, wood or peat burning stoves give you flexibility, performance and reliability.

Which of the stoves is right for me?

Please use the matrix below to find the stove for you - **room width x length (metres)**

	1	2	3	4	5	6	7
1			Arden/Willow	Arden/Willow	Arden/Willow	Arden/Willow	Arden/Willow
2		Arden/Willow	Arden/Willow	Arden/Willow	Arden/Willow	Arden/Willow	Arden/Willow Hamlet
3	Arden/Willow	Arden/Willow	Arden/Willow	Arden/Willow	Arden/Willow Hamlet	Arden/Willow Hamlet	Hamlet/ Arden
4	Arden/Willow	Arden/Willow	Arden/Willow	Arden/Willow Hamlet	Arden/Willow Hamlet	Hamlet/ Arden	Hamlet
5	Arden/Willow	Arden/Willow	Arden/Willow Hamlet	Arden/Willow Hamlet	Hamlet/Arden	Hamlet	Hamlet
6	Arden/Willow	Arden/Willow	Arden/Willow Hamlet	Hamlet/Arden	Hamlet	Hamlet	Hamlet
7	Arden/Willow	Arden/Willow Hamlet	Hamlet/Arden	Hamlet	Hamlet	Hamlet	Hamlet

Please note the matrix assumes an average ceiling height of 2.4m. The suitability of each stove is calculated by multiplying room height x room width x room depth and dividing by 14 which gives the average heating requirements for the room in kilowatts. In many cases, more than one stove is suitable due to overlaps in the heating outputs.

Epitomising warmth and comfort.

The Camborne Suite comprises a smart mahogany finish surround with a classic cream hearth and back panel. The perfect alternative to a real coal fire, the Blenheim brass gas fire is included in this suite.

Product	Max. Heat Output	Control Position	Chimney Flue Type
Camborne Suite	3.1kW	Manual	Brick Chimney Pre-fabricated flue Pre-cast flue

The Pacha Suite has striking clean lines that will compliment any contemporary room setting.

The brushed steel fascia and white pebble bed of the Seattle fire sit comfortably within the clean lines of the Maple finish surround and black back and hearth panels.

FireSlide top control enables you to turn the fire on, off, up or down, without kneeling down.

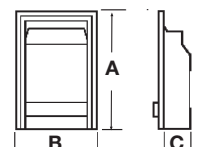

†LPG conversion kit available. †Due to the sheer number of varying flue boxes pre-cast flues it is not possible to advise on which fires are suitable until the existing fire has been removed. We do recommend the use of a hearth. If the width at the rear of the precast flue starter blocks is less than 300mm wide the minimum depth of the opening will be not less than 154mm. *When using a replacement chairbrick, fireplace openings required are Height 555-565mm Width 405-445mm Depth 305mm.

●Applicable to certain pre-cast flues only when used with the optional extra spacer kit, a rebated surround or false wall may be required part numbers 05654k1 Bowl heaters 05617k1 class1. ▲We do recommend the use of a hearth.

All Valor fires comply fully with minimum efficiencies as outlined in the new Part L regulations

As with all products from Baxi Fires Division you can be assured of the following:

Quality

Unlike most other manufacturers, every single fire manufactured at our purpose built factory in Erdington is gas and leak tested for your peace of mind. Our products are manufactured in accordance with the internationally recognised Quality Management System Standard ISO 9000:2001.

Assured safety

All our fires are fitted with a flame safety device which cuts off the gas in the unlikely event that the pilot flame is blown out, plus our Oxysafe system which monitors the level of oxygen in the room and cuts off the fire if there is insufficient oxygen in the room. All of our electric fires are also fitted with an electrical cut out safety device.

After sales service

We are so sure of the quality of our fires that in the unlikely event of any mechanical problems during the warranty period we will send out one of our expert Heateam engineers to rectify the problem free of charge*.

The service division

heateam
the heat experts

heateam is a Baxi Heating UK operation dedicated to providing state-of-the-art customer service. Its role is to support our products long after they leave our factory.

Tel: 08706 090081. Email: service@heateam.co.uk

GENERAL NOTES

All gas appliances must be installed by a competent CORGI Registered Installer and in accordance with the manufacturer's installation instructions and they should not be fitted directly onto a carpet or floor of combustible materials.

Please note that certain parts of the appliance will become hot.

A suitable guard is therefore recommended where the very young or infirm are concerned.

Our policy is one of continual improvement and development. The right to change specification without prior notice is reserved.

Reproduction of colours is as accurate as photographic and printing processes will allow.

The statutory rights of the consumer are not affected.

*No liability is accepted for problems caused by poor installation or misuse of the product.

Baxi Fires Division, Wood Lane, Erdington, Birmingham B24 9QP.

Valor Heating is a trading name of Baxi Heating UK Limited. Registered in England 3879156.

A Baxi Group Company.

Registered office: Pentagon House, Sir Frank Whittle Road, Derby DE21 4XA.
