beautiful homes

wonderfire

# fire your imagination

## **Welcome to the Wonderfire brochure**

Inside, you'll find fires capable of totally transforming the look and feel of your home.

A whole range of beautiful gas and electric fire designs in contemporary and traditional styles, a wide selection of colours; from classic brass through to contemporary bronze, a selection of fuel beds including coals, pebbles or driftwood and skimmers. Additionally, our Airflame fires are like no other gas fires. Widely acknowledged as the best on the market, they emulate a real fire in every way. They also boast Airflame's Mix & Match feature which gives you the chance to select any combination of frame, front and fuel bed. You can totally transform the look of your fire in years to come without going to the expense of buying a complete new fire, simply through purchasing a new frame and firefront.

But no matter which Wonderfire you choose, you have the chance to select a fire which will create the perfect ambience and focal point for your room, no matter what your taste or requirements.

## technology to inspire you

Airflame fires are like no other gas fires. With Airflame fires you can choose the height and colour of the flames and control the heat at the touch of a button. Furthermore, the unique 'Mix & Match' feature ensures you get exactly the fire you want.

### Airflame technology

**Remote Control**  
All Airflame models are also available with battery operated hand held remote control option.

**Top Control**  
For effortless ease of use.

So take a look at the benefits the Airflame 'Mix & Match' range can offer you to create your own ideal fire.

### Features and benefits of Airflame Technology

- Best dancing flame realism due to the unique patented Airflame burner and matrix system.
- Best aesthetics live or cold using hand-made 'random' coal overlays.
- Beautiful glow and ambience. The Airflames's glowing realism creates, at its heart, 1200 degree celsius of intense heat and light
- Most authentic flame patterns using the FX control. You control between coal or coke effects, offering yellow or blue flame options.
- Convenient operation using the double spark ignition system with fully adjustable flame height.
- Optional hand held battery operated remote control.
- Mix 'n' Match trim and front options. Whichever Airflame fire you choose, you can specify a coal or pebble bed; any one of four styles of fire front; a double, or half frame; manual, remote control or top control.
- Choice of radiant heat or convected and radiant heat models.
- XL version provides heat output up to 5.5kW (NV 4.0kW)

Changes to the frame and front are a quick and easy DIY task. Changes to the fuel bed may require professional assistance.

# Mix and Match

Double

Half

Aspire

Style

Bauhaus

Blenheim

A coal or pebble bed? No matter which Airflame fire you choose, it's your choice entirely. Both produce an impressive glow and heat output. And both are available with a choice of either manual or remote control. A top control option is available for fires with a coal fuel bed only. What's more, with Mix & Match, it's easy to change the fuel bed in the future too.

Changing the frame of your fire can transform the entire look of your room. With Airflame fires you can choose a double, or half frame in classic brass or contemporary chrome. You could even choose to have a wide trim by removing the smaller of the two trims from the double frame.

Changing the front of your fire is simple and an incredibly effective way to give it a completely new look. 'Mix & Match' means that whichever Airflame fire you choose, you can opt for an Aspire, Style, Blenheim or Bauhaus front to complement it in a choice of finishes or, in years to come, you can very simply change the front to create a whole new look.

Style with coals in chrome.

# style airflame

Style Airflame is a beautiful, elegant, fire. Its patented Airflame technology brings you the look and feel of a real fire and its clean, understated appearance ensures it is the perfect centrepiece for all kinds of interior design schemes. But Style Airflame doesn't only mean stylish, it also means choice. For gas and electric models, thanks to our Mix & Match system, you can choose between a coal or pebble bed, and a chrome or polished brass finish. For gas models you can even choose between manual, remote control or top control (coal bed only). Which means you can add your own touch of Style to any room in your home.

## The Style Airflame Fire

- Airflame technology for ultimate realism

# the fire collection

Style never goes out of fashion, which is why you can't go wrong with the fire collection from Wonderfire. Whether you prefer the welcoming homely feel of the Opulent, the contemporary looks of a hole in the wall Splendour or the truly evocative driftwood and skimmers fuel bed of the Fascination, Wonderfire has a fire to suit your taste and requirements perfectly - even if your home doesn't have a chimney. But with Wonderfire, great design isn't purely about aesthetics. It's also about performance. For instance, many of the fires in our collection feature our innovative fireslide controls which are conveniently located on top of the fire for ease of use. We also have remote control fires for complete ease. Some of our models have curved rear reflectors which give enchanting real flame effects. Others have Activeheat™ technology designed to keep even the furthest corners of a large room warm. Take a look for yourself on the following pages, because we think you'll agree that the Wonderfire collection has style and substance.

# fascination

Purely and simply stunning. That's Fascination. Suitable for hearth or hole in the wall mounting, the gleaming frame and striking glass front of this scene-stealing fire provide the perfect backdrop for the ultra-stylish driftwood and skimmers fuel bed. One look at it and you'll see how the Fascination earned its name. Just watch the flames dancing in, out and around these exquisite hand-formed materials, creating myriad shapes and, ultimately, a truly stunning centrepiece for your room. It could keep you fascinated for hours.

'Hole in the wall' mounted  
Fascination in bronze.

Hearth-mounted  
Fascination in platinum.

Driftwood and skimmers fuel bed.

Remote control. (optional)

#### Fascination

- Stylish glass front
- Contemporary driftwood and skimmers bed
- Available in platinum and bronze
- Suitable for hearth or hole in the wall mounting
- Suitable for homes with deeper chimneys or flues
- Spacer kit available for shallower pre-cast flues\*
- Heat output 2.4kW
- Optional battery operated remote control (shown below)

\* Deep fires can be used with a spacer kit (to be purchased separately) in homes with shallower pre-cast flues. This however, will require the use of a deep rebated fire surround or false chimney breast. Please talk to your installer for further information.

Splendour landscape.

Splendour portrait in black.

# splendour

The epitome of sophisticated styling, the Splendour is a stunning fire for the contemporary home. The inspired design takes minimalism to a whole new level. A guaranteed talking point, this is a fire that commands attention. The classic curves of the natural stone effect or highly polished chrome bowl are cleverly highlighted by the ribbed rear reflector. Add its sensational new flame effect and you'll be mesmerised for hours. Splendour fascias are created from a solid marble base and so deliver all the natural and authentic appeal of a stone fascia. The full remote control system even allows you to ignite the fire from the comfort of your arm chair and removes the need for a permanent pilot light on the fire.

## Splendour

- Mesmerising flame picture with beautiful ambient glow
- Landscape version available in stone with a stone effect bowl
- Suitable for hearth or wall mounting  
(20mm gap required above top surface or hearth)
- Suitable for homes with deeper chimneys or flues
- Full remote control
- Heat output 2.5kW
- Optional hearths available
- Portrait versions available in stone with a stone effect bowl or black with a chrome bowl

Top control for effortless operation

Opulent with deep fuel bed  
in antique silver.

# opulent

As its name suggests, the Opulent adds a touch of luxury to any room.

With a choice of gold plated or antique silver finish, the Regency-inspired cast iron trim and fret of the Opulent evokes a timeless appeal. A simple fireslide top control means you can turn Opulent on, off, up or down effortlessly.

The Opulent is also available with a deep or slimline coalbed, so it's the ideal choice for a classically decorated room, even those with smaller flues.

 Top control for effortless operation

'Hole in the wall' mounted Serenity.

Serenity electric mounted on a flat wall with spacer kit.

# serenity

Look into a fire that will make you feel calm and relaxed after a long stressful day - look into Serenity. The ultimate style statement, its striking platinum finish, up-to-the-minute landscape appearance and tranquil white pebble bed give that memorable designer feel to any room.

#### The Serenity Fire

- Stylish landscape design
- Tranquil new white pebble bed
- Available in platinum finish
- Suitable for hearth or hole in the wall mounting
- Designed for homes with deeper chimneys or flues

- Spacer kit available for shallower pre-cast flues\*
- Heat output gas 2.6kW
- Heat output electric 2.0kW (new flame picture)
- Spacer kit included (electric)

\* Deep fires can be used with a spacer kit (to be purchased separately) in homes with shallower pre-cast flues. This however, will require the use of a deep rebated fire surround or false chimney breast. Please talk to your installer for further information.

# eternal

A fire you'll love forever. Inspired by the simple elegance of the Art Deco period, Eternal will set off any style of décor. Its subtly sculpted frame and graceful three-bar fret are reminiscent of 1920's luxury liners. But the Eternal doesn't just have lots of style. It also has a wealth of substance. Boasting Activeheat™ and a fireslide top control for ease of operation, Eternal is as effective as it is beautiful.

Memphis with optional tracery.

Memphis.

# memphis

If you love the warm, cosy look of stoves but yearn for the convenience of gas, the Memphis is the stove for you. With its stylish chrome trim, the Memphis is perfectly at home in a contemporary setting. Alternatively, for a more traditional look, just add the optional tracery. With a realistic flame effect, a choice of two sizes and heat outputs, there's a Memphis Stove to suit your home and your needs exactly.

#### The Memphis Stove

- Solid steel construction and cast iron door
- Optional tracery for more traditional look
- Available in two sizes and two heat outputs
- Easily controllable heat settings
- Top or rear flue connection for flexible installation
- Suitable for homes with deep chimneys
- Heat output
  - Memphis 5 - 3.0kW
  - Memphis 7 - 4.0kW

# savannah

The Savannah has a steel main body and a heavy cast iron door; it truly offers the charm of a real fire. With its impressive heat output of 4.8kW, the Savannah is ideal for heating all sized rooms and ensures immediate comfort and warmth without the mess of wood or coal.

The Savannah offers the options of complete remote control that can be used to programme a constant room temperature as well as turning the fire on and off to pilot and a choice of log or coal fuel bed.

Optional accessories of a canopy and decorative door tracery will enable you to personalise your stove and make it perfect for your home.

#### The Savannah Stove

- Solid steel construction and cast iron doors
- Optional tracery for a more traditional look
- Easily controllable heat settings
- Heat output 4.8kW

† Due to the sheer number of varying flue boxes it is not possible to advise on which fires are suitable until the existing fire has been removed.

‡ Applicable to certain pre-cast flues only when used with the optional extra spacer kit. A rebated surround or false wall will be required.

\* When using a spacer kit.

No xl kit for the top control models

Please refer to instruction manual for other chimney flue types.

# Which Wonderfire is right for you?

We want you to enjoy your new Wonderfire right from the very start.

That's why we've made it easy for you to select the fire that's perfect for you and your home.

So all you have to do is take a look at the pictures below and decide which one best matches the chimney at your home then, when you're leafing through our brochure and find a fire you like, simply check it's suitable for the chimney at your property.

## Brick-built chimney (deep chimney)

Suitable for all fires, the classic brick-built chimney can handle fires with a deep bed right through to shallower slimline styles.

## Pre-fabricated flue (deep flue)

Suitable for most fires, pre-fabricated flues are deep enough to take most of the deep models and all of the slimline styles.

## Pre-cast flue (slimline flue)

Usually found in modern homes, pre-cast flues are suitable for a wide range of slimline fires. However, a number of deeper fires can be adapted for pre-cast flues with the use of a spacer kit.

## No chimney or flue

Our range of balanced flue, powerflue and electric fires may be the ideal solution for you.

## Spacer kits

Some fires can be adapted to fit certain pre-cast flues. So if you like the look of a deeper fire but only have a shallow chimney or flue, a spacer kit could provide the ideal solution. For further information, please talk to your installer.

## Activeheat™ and Radiant Heat

All fires give out radiant heat. Radiant heat feels like being warmed by the sun. The heat moves outwards from the fire, so the closer you get to the fire the warmer you feel. Whilst this is suitable for most homes, creating additional warmth throughout the room can take some time. This is where Activeheat™ helps.

Fires with Activeheat™ not only give out radiant heat but actively draw in the cold air from the room, pass it through a heat exchanger to warm it up and circulate it back around the room by means of natural convection, improving the output and efficiency of the fire in the process.

Authenticity worth paying for

## Airflame technology

Quite simply the most realistic gas fire available today, Airflame is widely acknowledged as the best on the market. With its deep ambient glow and beautiful authentic dancing flame patterns, Airflame emulates a real fire in every way. The patented technology gives 1200 degrees celsius at the heart of the fire and allows users to control the flame height and colour.

Flexible fires

## Mix & Match

Wherever you see the Mix & Match logo, you have the option to customise the look of your fire. You can specify a coal or pebble bed, an Aspire, Bauhaus, Style or Blenheim front with either manual, top control or remote control. There is also a choice of finishes and double, or half frames. See the Mix & Match fire options on pages 4 – 15.

## Fireslide

Wherever you see the Fireslide logo your fire will be supplied with the Fireslide top control for ease of operation.

All Wonderfire gas fires comply fully with minimum efficiencies as outlined in the new Part L regulations

The service division  
**heateam**  
the heat experts

Heateam is a Baxi Heating UK operation dedicated to providing state-of-the-art customer service. Its role is to support our products long after they leave our factory. Our lines are open 363 days of the year and our team of CORGI registered gas engineers are on hand 6 days a week, to provide support. In the unlikely event that there are any mechanical problems with your fire while it is still in warranty they will come out to rectify the problem free of charge\*. Heateam also offer the facility to register your guarantee and extend the warranty on any of our gas products for your added peace of mind. Telephone 08706 090081 or visit [www.heateam.co.uk](http://www.heateam.co.uk).

#### GENERAL NOTES

Wonderfire gas fires are C.E. approved and manufactured under a BS EN ISO 9001 quality system, which covers all areas of product design, development, manufacture and service. All gas appliances must be installed by a competent Corgi Registered Installer and in accordance with the manufacturer's installation instructions and they should not be fitted directly onto a carpet or floor of combustible material.

Though accurate at the time of printing, this brochure is not intended to replace the installation manual which provides more detailed information. Please note that certain parts of the appliances will become hot. A suitable guard is therefore recommended where the very young or infirm are concerned. The Wonderfire policy is one of continual improvement and development. The right to change specification without prior notice is reserved. The statutory rights of the consumer are not affected.

\*No liability is accepted for problems caused by poor installation or misuse of the product.

The Wonderfire brand belongs to Baxi Heating UK's Fires Division, Wood Lane, Erdington, Birmingham B24 9QP and is a registered Baxi Group Company.
